

MEMBER UPDATE JULY 2010

Officers Elected: The new WCPOA Board met on July 9 and elected officers for the coming year.

They are:

Pat Karman – President
Andy Kindig – Vice President
Kathy Curtiss – Secretary
Heather Patrick – Treasurer

Backflow Prevention Survey: The response so far to the Backflow Prevention Survey that was distributed in June to all members with water connections has been good. Those who haven't yet completed and submitted their survey are asked to do so. The due date for surveys is July 31, 2010. (The document is also referred to as the Cross Connection Survey.)

Irrigation Season Precautions: We have the potential to experience low water pressure at some locations in our system if too many irrigation systems are running at one time. The morning hours from 6:00 to 9:00 am seem most susceptible to low water pressure, so please program your systems to complete their cycles before 6 am.

Pete to check meter function: Pete Soderquist, our water system manager, will be testing water meters during the first two weeks in August. He will be checking meters to verify that they are operating properly. Don't be surprised if you see him drawing water from hydrants and checking meters.
